Education

Bachelor of Technology (B.Tech) – Information Technology

2024 – 2028

Shri Vishnu Engineering College for Women
CGPA: 9.18

Technical Skills

- **Programming Languages:** Python (Primary), Java, JavaScript, SQL, C
- **Machine Learning:** NumPy, Pandas, Data Preprocessing, Predictive Analytics, Machine Learning Fundamentals
- **Backend Development:** Spring Boot, REST APIs, Spring Security, JWT Authentication
- **Web Technologies:** HTML, CSS, JavaScript, React
- **Databases:** PostgreSQL, MySQL, JDBC, SQL, Relational Database Design
- **Cloud:** AWS Cloud Fundamentals, Cloud Computing Fundamentals
- **Core Computer Science:** Object-Oriented Programming (OOP), Data Structures & Algorithms, Database Management Systems (DBMS), Operating Systems
- **Developer Tools:** Git, GitHub, IntelliJ IDEA, VS Code, Maven

Experience

Java Developer Intern

June 2026 – July 2026

EduSkills

- Developed backend applications using Java, Spring Boot, REST APIs, and relational databases through industry-oriented projects.
- Applied object-oriented programming principles, Git version control, and the Software Development Life Cycle (SDLC) in backend application development.
- Collaborated on designing and implementing scalable backend modules following layered architecture.

Projects

OfferForge

Python — Machine Learning — Flask — PostgreSQL — REST APIs

GitHub

- Developed an AI-powered internship recommendation platform that predicts candidate-job compatibility using machine learning techniques.
- Built REST APIs using Flask and integrated PostgreSQL for secure storage and efficient retrieval of user and internship data.
- Performed data preprocessing, feature engineering and prediction workflows to generate personalized internship recommendations.
- Designed a modular backend architecture for scalable model integration and recommendation services.

Smart Resume Advisor

Java — Spring Boot — REST APIs — MySQL

Live Demo | GitHub

- Developed a backend resume analysis platform using Java, Spring Boot and MySQL.
- Implemented PDF resume parsing and automated skill extraction for intelligent resume evaluation.
- Built REST APIs and designed normalized relational database schemas for scalable backend services.
- Developed a resume-job matching engine that generates compatibility scores and personalized recommendations.

Certifications

- AWS Cloud Practitioner Essentials – Simplilearn SkillUp
- Introduction to Generative AI Studio – Google Cloud × Simplilearn SkillUp
- Troubleshooting Python Machine Learning – Infosys Springboard

Competitive Programming

- Solved 100+ Data Structures and Algorithms problems using Java, strengthening algorithmic thinking and problem-solving skills.

Achievements and Activities

- Secured **1st Place** in a college-level Idea Pitching Competition for presenting an innovative technology solution.

- Selected as an **AQVH Semi-finalist** based on technical feasibility and innovative solution design.
- Cleared institute-level screening for the **Smart India Hackathon (SIH)** through solution design and technical evaluation.
